

**Your patient's prescriptions.  
Your valuable time. Now in Sync.  
*Introducing our Medication Synchronization Service.***

Our MedSync prescription program is a service offered at our pharmacy where we work with your patients to synchronize their medications to come due on a single day of the month - making it more convenient for you and your patients.

**How does this benefit you and your patient's lives?**

***Increases medication adherence and compliance for your patients***

***Consolidates communications with your office by reducing the amount of refill calls throughout the month***

***All medications are ready at the same time of the month, every month***

***Fewer trips to the pharmacy for your patients***

**Making our physician's and patient's lives easier!**
